1. The drawings were received on 6/24/05. These drawings are accepted.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Vesborg in view of Colombo in the manner applied to claim 1 in paragraph 5 of the previous Office action, and further in view of Howard, Jr. '494.

Applicant has amended claim 1 by adding the reinforcing ribs disposed in the central portion of the bottom wall which are not connected to the groove ribs. The use of inner reinforcing ribs to strengthen the recessed bottom is well known in the art. Therefore to have added reinforcing ribs in the central portion of the bottom for greater strength would have been obvious in view of such teaching by Howard, Jr. Note that members 28 do not connect with members 24 as shown in Figure 6.

3. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claim 3 is allowed.
5. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.
6. Applicant's arguments, see page 6 of the amendment, filed 6/24/05, with respect to the objections to the drawings and abstract and rejection of claim 2 have been fully considered and are persuasive. The objections to the drawings and abstract and rejection of claim 2 have been withdrawn.
